

Sprint 3

Protocol

User stories

2 finished user stories
15/16 finished tasks

The image shows a vertical stack of four user story cards from a Kanban board. Each card has a colored header bar, a title with progress and difficulty, and a row of icons and assignee avatars.

- Card 1 (Red header):** "Signup function (7/7) (difficulty: 5.7)". It has a green checkmark icon with "7/7" and two assignee avatars labeled "AH" and "JP".
- Card 2 (Yellow header):** "Login function (5/5) (difficulty: 7.3)". It has a green checkmark icon with "5/5" and four assignee avatars labeled "AH", "CS", "JP", and "MJ".
- Card 3 (Green header):** "Advanced post (5/6) (difficulty: 5.3)". It has a green checkmark icon with "4/6" and three assignee avatars labeled "CS", "JP", and "MO".
- Card 4 (Blue header):** "Post tags (1/3) (difficulty: 6.3)". It has a green checkmark icon with "1/3" and three assignee avatars labeled "AK", "LÖ", and "MJ".

At the bottom of the board is a grey bar with the text "+ Add another card" and a small icon of a card with a plus sign.

1. Signup function

Description

As a user, I want the ability to create an account which stores my personal information.

(Add a button in GUI to be able to signup new user and save it locally)

Tasks

- Visible Signup button in GUI
- Get a signup page with fields required for user creation when clicking on the signup button
- Being able to fill the required field for user creation and save the data to a file
- Being able to store the user in the client and save it to a file
- Load the saved client data from a file
- Is the user prompted to retry if there was an error?
- Is there a visual indication when a user is successfully created?

2. Login function

Description

As a user, I'd like to be able to login to a preexisting client user, to save my data.

Tasks

- Is there a view for logging in?
- Can i log in to a preexisting user?
- Can multiple people log in to different users?
- Is the data of the currently logged in user appended to newly created posts?
- Visual indication for which user is logged in

3. Advanced post

Description

As a user, I want to be able to include more information about myself and the item I'm sharing.

Tasks

- Specify time when I'm available - not finished
- Ability to indicate when I have received a positive reply
- Tag the post as Donation or Seeking post

Tasks we decided to not include in this sprint:

- Include an image of the food

Previously finished tasks:

- Include my number so I am reachable
- Include my address (and apartment number)

4. Post tags

Description

As a user, I would like to be able to add tags to my posts, to ensure other's more easily can search for posts like mine, and to sort them by category/tag.

Tasks

- Are tags read from a file?

Tasks we decided to not include in this sprint:

- Is it possible to add one or multiple tags to my post?
- Are the tags displayed on the board, connected to my post?
