Sprint 5

Protocol

User stories

Beginning:

End:

4 finished user stories
8/8 finished acceptance
criterias

1. Advanced post

Description
As a user, I want to be able to include more information about myself and the item I'm sharing.

Acceptance criterias:
- Include an image of the food item

Previously finished acceptance criterias:
- Include my number so I am reachable
- Include my address (and apartment number)
- Ability to indicate when I have received a positive reply
- Tag the post as Donation or Seeking post

2. Search

Description
As a user, I would like to be able to search for specific items without having to browse through multiple things if I already know exactly what I want or need.

Acceptance criterias
- Responsive and correct results

Previously finished acceptance criterias:
- Search bar

3. Categories

Description
As a user, I would like to be able to look through categories of available items, to more easily find the item that I need.

Acceptance criterias:
- List of categories for the user to choose from (only Donations/Requests)
- Appropriate items under correct categories
- Ability to tag with appropriate categories (to ensure it shows up under the right heading)

4. Prettify application

Description
As a user, I'd like a pretty app, which is nice to look at, because aesthetics.

Acceptance criterias:
- More green in app
- More aesthetics
- Increased cohesiveness and consistency
